Migliore  
Costruzione &  
Tecniche

## Message from the CEO

---

Migliore Costruzione & Tecnica Limited is a construction company founded on the belief that only the best can deliver buildings, roads, bridges and other infrastructural structures for their intended uses and purposes. The company was founded and currently runs on the principles of six sigma quality management approach with emphasis on what is critical to individual client satisfaction. At MC&T, we believe that today's competitive environment leaves no room for error. We must meet the needs of our clients and relentlessly look for ways to exceed their expectations. This is why Six Sigma Quality is part of our culture and we are committed to its goal.

Our company is led by a team of greatly passionate professionals with vast experience in the construction industry. These experts have the local and international experience that helped in the delivery of roads, bridges, hotels, commercial and residential buildings, shopping malls, underground structures, schools, multi-storey structures and structural steel works to the satisfaction of clients and their intended users.

At MC&T, we are committed to delivering projects of impeccable quality, within agreed timelines and budget by making sure all stakeholders, especially the client fully understands the implications of decisions and non-decisions in the process of delivering a project. We believe that every client deserves the wonderful experience of true professionalism geared towards making their respective projects a huge success.

Our commitment to delivering great quality work, within agreed timelines and budget, while being adaptive to individual client's need is evident in various ways; one of such is our well-rounded training program for all our team members. Another is our unique but rigorous selection process for our construction engineers and managers, builders, senior site operatives and supervisors, tradesmen and artisans.

We are committed to pushing the boundaries of construction possibilities in order to re-write the story of the Nigerian construction industry. If it can be imagined, then we can build it.

Do you desire great satisfaction through the process of delivering a project? And even greater satisfaction years after the project had been completed. We ask that you partner with us because we have something great in common.

**Lekan Omole**  
Chief Executive Officer

## Our Mission

To improve the environment by using the best construction techniques and engineering technology available in the construction of buildings, roads, structures, and civil works to international standards.

## Our Vision

To be the best construction engineers and builders on the African Continent by continuously putting our best into all we do.

## Our Values

- Quality
- Integrity
- Professionalism
- Creativity
- Team Work
- Positive Attitude
- Passionate People

## Our Passion

Construction.....

We believe that before you can truly aspire to be the best at what you do, you must have an intense passion for it. If this is missing, you can never be the best at what you do.

## Our Culture

Today's competitive environment leaves no room for error. We must delight our customers and relentlessly look for new ways to exceed their expectations.

This is why Six Sigma Quality has become a part of our culture.

## Our Drive

We believe that if you are doing something you care that much about and you believe in its purpose deeply enough, then it's impossible to imagine not trying to make it great.

## Our Services

MC&T is an indigenous contracting company specializing in commercial and institutional construction. We offer traditional contracting services in innovative construction, project development and management, design and build, structural steel fabrication and installation. Our construction equipment leasing unit avails us flexibility and speed in delivering projects. MC&T will perform work on either a negotiated or competitive bid basis.

Our core value is quality and we implement our Quality Management System to every project embarked upon to ensure customers obtain value for their money. Offering a comprehensive range of construction services enables us to tailor a delivery system which matches our clients' needs, goals and budget. MC&T's commitment to these services adds value to your project and helps ensure its success.

- Construction And Project Development
- Structural Steel Fabrication and Erection Services
- Construction Equipment Leasing

# Construction and Project Development

Our dedicated and highly qualified construction engineers, managers and project managers carry out sophisticated architectural and engineering ideas and concepts, turning them into real life and environmentally-friendly structures. We are experts in project development from conception through execution phase and are timely in our delivery.

# Structural Steel Fabrication and Erection Services

We possess a fully equipped Fabrication Workshop with capacity to deliver over 4000 tonnes of structural steel yearly with the dedicated hands of our competent professional fabricators, welders, and erectors that ensure all orders for various structural elements, members and connections are produced and installed to the highest quality achievable and on time.

## Construction Equipment Leasing

Our range of modern construction equipments are readily available and at affordable cost to ensure every project is run swiftly and easily. We have amongst others;

Mobile Cranes

Tower Cranes

Pay loaders

Excavators

Dozers

Roller Compactors

Truck Mixers & Concrete Pumps

Rough Terrain Self Loading Mobile Mixers

Delivery Trucks

## Our People

At MC&T, our greatest asset is our people. We have built a team of highly skilled and seasoned professionals whose expertise forms the backbone of our company's core values and strength. Each member of our team is carefully selected to ensure that we deliver the highest quality of work, while keeping costs efficient for our clients. Our field crews are rigorously trained in lean management practices, which ensures maximum productivity, zero downtime, and flawless execution on every project.

To maintain our high standards across all sites, we invest in robust training programs that nurture the next generation of professionals. Young graduates and assistants work closely with experienced team leads to learn the craft, ensuring that our legacy of quality, innovation, and accountability is sustained. Our staff redundancy policy ensures that we always have a well-prepared, trusted workforce ready to be deployed on new projects, preserving our culture and performance excellence.

## Our Experience

With over a decade of delivering world-class construction projects, MC&T has earned a reputation for excellence. We are a technique and technology-driven indigenous construction company that has successfully completed a wide array of projects, including hotels, commercial buildings, shopping malls, underground structures, schools, multi-story complexes, roads, and structural steel works. Our projects are completed with precision and care, setting new benchmarks in quality.

## Partnership

Our impeccable achievements have earned us enviable partnerships with leading global construction companies. Through these collaborations, we have consistently met demanding deadlines while maintaining the highest quality standards. As we move forward, these strategic partnerships continue to play a crucial role in our ability to tackle ambitious projects, ensuring we remain at the forefront of the industry.

## Our Growth

MC&T has demonstrated remarkable resilience and sustained growth, even in the face of volatile financial, economic, and regulatory challenges. Our solid financial foundation, reflected in our strong liquidity and solvency, has been instrumental in earning the trust and confidence of our clients. This stability has allowed us to consistently deliver world-class projects both locally and internationally.

Over the past decade, our growth trajectory has been remarkable, with each successfully completed project showcasing our unwavering dedication, resilience, and stability. Our commitment to delivering the highest quality has consistently met and exceeded client expectations, cementing our standing as a trusted leader in the construction industry.

Looking ahead, MC&T is poised for further expansion. In the near future, we will be actively pursuing larger-scale projects, including the construction of roads, bridges, public infrastructure, and housing schemes. We are also exploring joint venture opportunities and international partnerships to further strengthen our portfolio and extend our global reach to continue growing, delivering excellence, and setting new standards in the construction industry.

## Our Achievements

We at MC&T are honored to be awarded Construction Company of the Year 2021 (Indigenous) by the Nigeria Institute of Quantity Surveyors (Lagos Chapter). The Africa 100 most valuable brand 2023 also awarded us the most valuable construction Engineers of the year 2023. These recognitions are in no measure boosted our productivity and set new standards for operational excellence. We appreciate all the stakeholders, clients and partners of MC&T who have made this possible.

Construction Company of the Year 2021  
(Indigenous)

Africa's Most Valuable Construction Engineers  
of the Year 2023

ISO 9001:2015 Certification

## Facility And Projects

MC&T maintains dedicated yard facilities across all operational sites to ensure efficient project management and support, enabling us to meet deadlines with precision. We operate both construction and steel fabrication yards, each equipped with offices and integrated facilities designed to streamline the delivery of construction materials and resources. Our yards are also home to machine and equipment maintenance centers, allowing us to manage repairs and ensure the continuous availability of essential tools, machinery, and equipment.

Additionally, MC&T owns and operates a well-maintained fleet, ensuring that all machinery and equipment are reliably available to meet performance targets and deadlines across a wide range of projects. This robust infrastructure allows us to deliver seamless operations, ensuring that all resources are in place to support project execution at every stage.

# Health, Safety & Environment

At Migliore Costruzione & Tecniche Limited, we understand that good quality work can only be delivered by healthy people who understand the importance of working in an environment that is safe.

The company recognizes its legal responsibility to health & safety standards which are of international standard and we are committed to the continuous improvement of our working environment.

Our commitment to health, safety and the environment goes beyond what we do on our sites on a daily basis; it has become a part of our culture where ever we are.

# Selected Projects

MC&T has unwaveringly kept pace with her mission, and this is evident in the world-class projects delivered over a decade of her existence. We have employed cutting-edge engineering technology and techniques in construction. The principles of the Six Sigma quality management approach is our watchword. We take pride in delivering high-quality construction solutions tailored towards meeting the diverse needs of our clients. With undisputed proven track records of excellence, innovation, and dedication, we have successfully completed a wide range of projects across sectors, including commercial, hospitality, residential, retail, education, public infrastructure, etc.

MC&T portfolio reflects our ability to manage and deliver complex world-class projects with precision and efficiency, ensuring that we exceed clients' expectations and satisfactions. Every project of ours is a testament to our core values of professionalism, integrity, quality, teamwork, and environmental responsibility.
